DIANA DISCHER

PROFESSIONAL SUMMARY

Developer experienced with a wide variety of design tools and coding languages comfortable working anywhere in a full technology stack. Works independently or in teams to produce high-quality applications, utilizing a background in high traffic retail settings to understand prioritizing and effective teamwork.

WORK HISTORY

Framer, Web Content Manager, Designer, 07/2015 to Current
Frameworks Studio & Gallery - Philadelphia, PA

- Maintained and edited website content as well as front end site styling
- Generated email marketing campaigns for gallery events occurring 4-5 times a year
- Handled administrative communications from phone inquiries to work order/invoice generation
- Executed event cards from concept to print for gallery openings and announcements

Design Intern, 04/2020 to 04/2022
ALMA Architecture - Philadelphia, PA

- Managed internal databases and referenced manufacturer databases for architectural projects
- Conceptualized and executed digital and print promotional materials using a pre-existing design deck
- Facilitated a monthly meeting between the firm and manufacturers to enhance collaboration
- Surveyed sites and used photos and measurements to draft sketches in AutoCAD to be presented to clients and the zoning council
- Used Photoshop to render visual mockups, and completed pitch decks presented to clients

Soda Jerk, 10/2022 to 09/2023
Franklin Fountain - Philadelphia, PA

- Maintained efficiency as a front of house team in a high-traffic setting, catering to up to 500 customers in a night
- Offered a hospitable atmosphere while sharing insights about the shop's history
- Strengthened communication skills through interactions with coworkers and customers

Counter Staff, 07/2018 to 09/2022
Lil Pop Shop - Philadelphia, PA

- Interacted with patrons and offered recommendations from a seasonally rotating menu
- Maintained organization and tidiness of the shop, adhering to health and safety regulations
- Participated in staff meetings to discuss ways to improve efficiency and increase foot traffic
